+63 947 743 6513 | Quezon City, Philippines | neilgrande2002@gmail.com | github.com/neilgarcia13

Technical Skills

Frontend Development: HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, React, NextJS, Vite
Backend Development: PHP, Laravel, C#, Java, NodeJS, ExpressJS, MSSQL, MySQL, PostgreSQL, MongoDB, Supabase, JWT, REST APIs
Automation and Integrations: Codex, OpenAI, Claude Code, Playwright, Stripe, Webhooks
Developer Tools: Git, GitHub, Visual Studio Code, Vercel, Figma, Slack, Jira

Professional Experience

Full-stack Web Developer (Remote) **Dec 2025 – Present**
Ad-Vanced Digital Adtech Ltd. *Dublin, Ireland*

- **Architected and rebuilt the Ad-Vanced UDI database**, designing the PostgreSQL/Supabase schema, account hierarchy, RBAC, RLS, RPCs, reporting structures, and backend architecture for a multi-account DSP platform.
- **Built and integrated core DSP and Meta Ads infrastructure**, covering unified cross-channel campaigns, creatives, campaign lines, bidding, pacing, frequency capping, supply-path optimization, reporting, feature access, lifecycle management, and agency/client Meta account workflows.
- **Led end-to-end product engineering and QA**, using phased architecture reviews, automated testing, security and access-control validation, responsive UX improvements, and production audits.

Technical Support (Internship) **Oct 2024 – Feb 2025**
VXI Global Solutions *Quezon City, Philippines*

- Gained hands-on experience in hardware and software troubleshooting
- Resolved technical issues swiftly and proficiently
- Participated in team meetings and shared learnings that drove technical skill improvements

Selected Projects

Supreme Barbers

- **Developed a responsive barber availability and reservation system using Laravel, React, Inertia.js, TypeScript, Tailwind CSS, and shadcn/ui**, helping customers find active barbers and reserve one-hour appointments online.
- **Built secure role-based workflows for customers and administrators**, including authentication, barber management, real-time slot availability, reservation limits, cancellation handling, and reservation history.
- **Implemented operational tools** such as reservation filtering, daily barber schedules with PNG export, image uploads, queued email confirmations, and a responsive branded interface.

Pricely!

- Developed a responsive selling price calculator app for small food businesses using **React, React Router, TailwindCSS, and shadcn/ui**, ensuring efficient navigation and modern UI design
- Implemented automated pricing logic that **reduced manual calculation time by 80%**, generating both regular and discounted selling prices based on ingredients and supply inputs.
- Designed a user-friendly workflow that guides users through entering ingredients, setting target margins, and instantly retrieving optimal selling prices for better business decision-making.

FindIT

- Designed and developed a responsive CRUD application that lets users to browse IT-field job applications and companies to add and modify jobs using **React, React Router, and TailwindCSS**.
- Implemented best code practices and created a **JSON server as an API/database** to perform REST architectural design principles.

Education

Quezon City University **Quezon City, Philippines**
Bachelor of Science, Information Technology **Aug 2021 – Jul 2025**
